40G/100G OEO spec (Card Type)

Product Application

- 40G or 100G network
- Network amplifying

Product Features

- Access signal rate: 41.2~45.2(4*10.3/4*11.3)/11.1103~112(4*25/4*28) Gbps
- Support 3R function
- Single card supports 2-channel two-way service processing
- DDM information monitoring
- Support SNMP/Client Remote management

Optical Specification

Parameters	Unit	Specifications
Line interface	---	QSFP28
Transmission speed	Gbps	41.2~45.2(4*10.3/4*11.3)/11.1103~112(4*25/4*28) Gbps
Client interface	---	QSFP28*4
Protocol	---	LAN/WAN, Fiber channel
Optical transceiver slot numbers	---	4
Two-way service channel numbers	---	2
Delay	us	< 3
Extinction ratio	dB	>4
SMSR	dB	> 30
Operation Temperature	°C	0~50
Storage Temperature	°C	-10~+70
Power Consumption	W	< 15W per channel
