

IMPORTANT ADVICE: TO READ BEFORE INSTALLATION

Take care to ensure the **2x wall plates** (& side arms) will align straight and evenly.

• Wall plates must never be more than 6" or 155mm apart.

If using **self-adhesive tape** (3M, reference RP45) ensure surface is smooth and dry.

- Press firmly along each wall plate for 30 seconds **Pic 1**.
- Waiting 24 hours before using the Cable Shelf allows the tapes to form the strongest bond; for maximum load bearing and long-term performance.

If **screw-fixing**, ALWAYS USE A DETECTOR INSTRUMENT to check there are no cables (or pipes) directly behind the surface **Pic 2**. If in doubt consult a qualified tradesperson.

Screw-fixings & wall plugs (supplied) are recommended TO SECURE CABLE SHELF ON WALLPAPER (load bearings on adhesive tape can cause a wallpaper's surface layer to rip from base layer) **Pic 3**.

- On surfaces painted in past 7 days (allowing time for paint to adhere to surface).
- On uneven surfaces.
- For loads exceeding 2.5kg / 5lbs > but less than 5.5kg / 10lbs.

In the cable cavity KEEP THE CABLES AWAY FROM THE AREA BELOW THE TROUGH PART OF LID **Pic 4**. Then the lid can easily shut on fitment.

- As required; use the guides, loop-holes, and push-on clips to neatly organize cables in the cavity.

If **painting** use only a spray-paint suitable for plastic surfaces. Always follow instructions of spray-paint manufacturer.

Tape removal requires effort & care.

- Remove the shelf section, then reattach the side arms to the wall plates; ensuring they "click" secure.
- Slowly apply downwards and sideways pressure to the side arm, until the tape peels from the wall. The side arm and wall plates should slowly detach at an angle **Pic 5**.

- Any unsightly cables running up the wall can be neatly contained in D-Line cable ducts, available separately **Pic 6**.

Guarantees and liability

Statutory guarantees apply. However D-Line can accept no liability for any loss or damage arising from this product, whether direct, indirect, special, incidental or consequential.
